Ayer's Cathartic Pills THE sciences of Chemistry and Medicine have been taxed their utmest to produce this best, most perfect purgative which is known to man. Innumerable proofs are shown that these Pills have virtues which surpass in excellence the ordinary medicines, and that they win un-precedentedly upon the effects of all man. They are not and pleasant to take, but powerful to cure. Their pene and peasant to tace, our powerun to care. Their pene-trating properties attimulate the vital activities of the body, remove the obstructions of its organs, purify the blood, and expel disease. They purge out the foul humers which breed and grow distemper, stimulate sluggish or discr-dered organs into their natural action, and impart healthy tone with strength to the whole system. Not only do they cure the every-day complaints of every body, but also fermidable and dangerous diseases that have baffled the best of human skill. While they produce powerful effects, they are at the same time, in diminished doses, the safest and best physic that can be employed for children. Being augar-coated, they are pleasant to take; and being purely vegetable, are free from any risk of harm. Cures have been made which surpass belief were they not substantiated by men of such exalted position and character as to forbid the suspiciou of untruth. Many eminent clergymen and physicians have leut their names to certify to the public the reliability of my remedica, while others have sent me the assurance of their conviction that

LIFE INSURANCE COMPANY OF SAINT LOUIS. Office, north-east corner Second and Pine street, basement Boatmen's Saving Institution, St.

WHAT IS LIFE INSURANCE?-1. It is the exercise of prudence, of benevolence. 2. It secures independence, domestic happiness to the widow and orphan. 3. Is more efficacious in its operations as regards the moral and domestic comfort of the people, and in its tendency to reduce taxa-tion, by its reduction of pauperism, and possibly to a time, than the legislation of our wisest statesof crime, than the legislation of our wisest states-men; and, if universally adopted, would be a na-tional blessing. 4. It affords to persons of every class, and in every station of life, the means to avoid much future misery to their families, and to render them independent of public or private

charity.

While it is the manifest and imperative duty of every parent, auring his life-time, to embrace all honorable means of supporting and advancing the interest of his offspring, so it is equally his duty to avoid leaving them at his death to grope their way in helpless poverty through an uncharitable world; and equally apparent is the duty of every husband to provide, in case of his death, for the surviving widow. To effect all which Life Insurance Companies have been formed, which enable every husband and parent, by the payment of a small sum, either a nutally or quarterly, to pro-vide for his widow and fatherless children.
